ROAM Analysis

	Issues	Actions	ROAM Designation
Issue 1	Limited developer skills in team	Team members focused on learning core student-module features only and avoided complex functionality.	Mitigated
Issue 2	Risk of delay due to academic workload	Development timeline was adjusted according to university schedule and exams.	Mitigated
Issue 3	No teacher/admin module in project	Scope was clearly defined as student-only system and approved by stakeholders.	Accepted
Issue 4	Bugs in task reminder feature	Developer fixed issues after testing and ensured reminders worked properly.	Resolved
Issue 5	Limited experience in UI design	Simple and user-friendly interface was used instead of advanced UI.	Owned
Issue 6	Risk of missing project deadline	Extra effort was put during free hours and tasks were prioritized.	Resolved
